

# Teaching Aids Made Available to Public

Teaching aids of various kinds, including 16 mm films, telephony kits, and live talks and demonstrations, are available to all public, private and parochial schools in the General Telephone Co.'s service area at no charge, according to Bernard Le Baron, Palos Verdes Division manager.

The firm's library consists of hundreds of titles on a wide range of subjects such as animal life, history, geography, science, transportation, communications, and others.

The telephony kits include the Telezonia Kit for elementary classrooms, which has a 17-minute color film, two telephone instruments, directories, a teacher's manual and student

booklets; the Teletrainer Kit, consisting of two working telephones, a simplified switchboard and a loudspeaker, which makes it possible for secondary classes to simulate telephone communications; a Telescience Kit for high school students, which has telephone instruments that can be dismantled and reassembled in the classroom; and some others.

TALKS AND demonstrations include "See Yourself as Others Hear You," a lecture on proper telephone usage, with cartoons and recordings, and "Object Outer Space," a presentation in which an actual size replica of one of the orbit-

ing United States satellites is shown in conjunction with colored overhead visual projections to demonstrate the use of satellites in worldwide communications.

Also available is "Micro-wave Magic," a nontechnical explanation with working models of transmitting and receiving towers which shows how television broadcasts and long-distance telephone calls are beamed through the air from point to point without the use of cable or wire.

BROCHURES and catalogues of the programs and motion picture films can be obtained at the local General Telephone business office, Le Baron said.

PROMISED THRILLS... Action such as this is promised Saturday and Sunday afternoon at the annual RCA Rodeo at the Del Amo Center as a highlight of the city's Ranchero Days celebration. The Rodeo will start at 2:30 p.m. on each of the two days.

## Professional Cowboys to Provide Rodeo Thrills

Rodeo, an American heritage handed down from early days of the open rangeland, swings into action here Saturday and Sunday.

Big-hatted followers of the rugged cowboy sport are paying their own way here to compete in the scheduled contests of the Torrance Rodeo. There will be two afternoon performances.

One of more than 500 approved each year by the Rodeo Cowboys Assn., the game's self-governing, administrative body, the rodeo here is open to entry of all professional contesting cowboys in the United States and Canada. They will pit skill and experience against outlaw livestock furnished by Andy Jauregui of Newhall.

The 15 high money winners in each event become eligible for rodeo's "world series," the National Finals, in early December in Los Angeles. Conclusion of the hard-fought play-offs names world titlist for the year. Thus, money won or lost at the rodeo here could affect Finals qualification.

Rodeo has grown from a rangeland pastime to annual prize money payoff of over \$3,000,000 held in 37 states and four Canadian provinces. Its top money winning cowboy has averaged over \$38,000 a year for the past decade.

## Gem Society Meeting Set On August 7

The Palos Verdes Gem and Mineral Society will hold its regular monthly meeting at 8 p.m., Aug. 7, at the Retail Clerks Hall, 25949 Bellepointe Ave., Harbor City.

The society also announced the opening of a show at the Palos Verdes Library Art Gallery, 2400 Via Campesino, Palos Verdes Estates, on Aug. 5. The gallery is open from 3 to 5 p.m. on Sunday, and from 2 to 5 p.m. weekdays.

BY THE END OF November,
